

TAMP DRS™ Smartphone App

DRS—There's an App for that!

TAMP Systems launches its **DRS™ Smartphone App**. DRS users will be able to access their BCM documentation as well as manage incident responses remotely.

If a disaster strikes and you're out of the office or on vacation, with the DRS Smartphone App broadcast feature you will be able to voice notify your affected team members immediately, review the incident management module to see up-to-date information on the status of recovery, plus you can access DRS Hot Buttons, Recovery Tasks and assigned call lists to begin the recovery process.

Replace your outdated notification system with the next generation interactive Disaster Management — TAMP DRS™ Smartphone App.

Key Features:

- ◆ Access Published Plans via Hot Buttons
- ◆ Disaster Management & Incident Response
- ◆ Broadcast Voice & Text Notification with real-time confirmation
- ◆ Real-time Management of Recovery Tasks
- ◆ Direct Link to assigned Call Lists

... ***all on your Smartphone***

Response & Recovery just got easier

TAMP DRS™

The TAMP DRS™ Smartphone App is an interactive application designed specifically for DRS. It features real-time alerts, voice and text messaging, and the ability to view the tasks required to recover immediately.

DRS Smartphone App not only provides quick access to your plan with our Hot Button technology, but even better the App will give you the pertinent information you need during a disaster crisis. When you declare the incident you can use the broadcast feature to notify everyone involved with a click of a button.

Overview & Features:

- ◆ When an Incident occurs a DRS user presses the Broadcast button in DRS which will send a voice/text message to those users who are associated to that Incident.
- ◆ Access and view Incident information. 
- ◆ Receive and confirm audio/text broadcasted messages.
- ◆ Mark Recovery Tasks as they are completed in real-time.
- ◆ Automatically dial team members by accessing assigned Call Lists.

Additionally, TAMP provides consulting services:

- ◆ **Consulting Services:** TAMP's BCM consulting services include the development of the Business Impact Analysis (BIA) as well as plans for business continuity, disaster recovery, crisis management, pandemics, workforce interruptions and other disaster incidents.
